By Roy Chapman : All about Dinosaurs under phylogenetic nomenclature dinosaurs are usually defined as the group consisting of triceratops neornithes their most recent common ancestor mrca and all zoom dinosaurs is a comprehensive on line hypertext book about dinosaurs it is designed for people of all ages and levels of comprehension it has an easy to use All about Dinosaurs:

3 of 3 review helpful Excellent By Hans Bertsch Marvelous classic tale of a scientist in the field The taxonomy and explanations for the dinosaur demise are out of date and the pre plate tectonic writing means the reader must realize when it was written and its value as a historical work I had it as a child and bought this copy for my grandson There is a tradition and history to doing science and this book fits r All about Dinosaurs Hardcover 1953 by Roy Chapman Author Thomas W Voter Illustrator
