press New Interpretations of Ape and Human Ancestry (Advances in Primatology):

In the field of paleoanthropology there is perhaps no more compelling issue than the origin of the human lineage From the 19th Century proclamations of Darwin Huxley and Haeckel up to the present day announcements of authorities such as Pilbeam Johanson and Leakey controversy and debate have always surrounded the search for our earliest ancestors Most authorities now agree that many important questions concerning ape and human ancestry will be solved by further
