By Walter Schumann : Gemstones of the World: Newly Revised & Expanded Third Edition port manteaux churns out silly new words when you feed it an idea or two enter a word or two above and youll get back a bunch of portmanteaux created by jamming express helpline get answer of your question fast from real experts Gemstones of

the World: Newly Revised & Expanded Third Edition:

42 of 43 review helpful THE Gemstone Resource By Reading It All From my title I guess you get the drift that this is THE gemstone resource book that everyone needs I passed my older version on to a friend before noticing that the publish date for this one had been extended and I have never been so lost This book s small format lends itself to tucking in a briefcase purse backpack whatever it is indispe Gemstones of the World is truly the single volume that every hobbyist jeweler jewelry maker and rockhound needs it rsquo s the cornerstone of the field And this updated edition contains a host of new findings on Gemstones for Collectors rdquo additional gems in the Table of Constants rdquo and the double fraction rdquo figures that experts have long wanted a very special new feature Language Notes Text English translation Original Language German
