Precious and Semi-Precious Stones: Second Edition:

4 of 5 review helpful Not the info I was expecting By Greyhound Lover I was hoping for more of a reference book on
gemstones Something more scientific with stone characteristics and identification tips photos etc This has no photos
and tends to lean more toward crystals stories and healing properties The look inside feature wasn t available when I
made my purchase but it s there now and it gives you a pretty This A Z guide to precious and semi precious stones
includes historical and cultural information names and meanings birthstones historical and contemporary traditions
folklore purported healing and mind enhancing powers and bibliography
