0 of 0 review helpful Done with great love of nature By Gustavo Coronel Very impressive visually A beautiful book Geological explanations are creative and easily understood by non geologists example the pig in page 9 Maps are a bit overcrowded and I was sorry the book did not cover the eastern portion of the country where I live Virginia Localities shown are too far for me to get to Of course the eastern porti The travels of a paleontologist and an artist as they drive across the American West in search of fossils Throughout their journey they encounter paleonerds like themselves

people dedicated to finding everything from suburban T rexes to ancient fossilized forests Cruisin is accessible fast paced and informative showing the rich history of fossil collecting in the American West Geotimes May 2008 a fantastic work of art that is truly fanciful and awe inspiring catching the real
