0 of 0 review helpful Great pocket book By Kindle Lover A great pocket sized book on dinosaurs with many new species included The one unfortunate aspect is that every sauropod description reads almost the same that they combed vegetation from trees swallowing them whole and used gastroliths and stomach acid to digest the raw vegetation that

they had to eat great quantities to fuel their activity For EVERY SAU For 150 million years dinosaurs were the undisputed rulers of the Earth Today these great lizards still fire our imaginations Dinosaurs profiles the creatures who lived during the great Age of Reptiles the real life giants and monsters such as the Tyrannosaurus Rex and Stegosaurus who once dominated our planet Also featured are many of the prehistoric world s other most fearsome and awe inspiring creatures from huge birds of prey to ferocious sabre toothed cats About the Author Gerrie McCall is a graduate from the University of Houston and now works as a freelance writer living in Austin Texas Her books include Monsters Villains of the Movies Literature
